CONGRATULATIONS

Dear Customer,
Congratulations! You are now one of the proud owners of a SHARP STAR Pump.

The SHARP STAR Pumps are engineered to techinical perfection with innovative design and stringent quality control to give trouble free service, year after year. We are confident that your SHARP STAR pumpset will give you excellent service.

This Installation and maintenance manual has been designed to make you familiar with the working, Installation and maintenance of the pumpset.

Utilise the services of a good plumber for erection. Our dealer will be only too glad to help you out in this.

Here's wishing you years of trouble free performance.

WARRANTY

Every possible care and precaution has been taken to ensure quality in terms of meterial and workmanship in the Pumpsets during manufacture. Our pumpsets including the electricals like motor, rotor etc. are guaranteed against defects due to faulty workmanship and materials for a period of twelve months from the date of commissioning.

During the warranty period, the above clause is valid only if.

a. The pumpset installed with proper wiring and electrical connections including neutral and earth connections.

b. The pumpset is put into use to pump cold, fresh, clean water only.

c. The winding have not confacted with water, the pumpset is not run at below 150V (for single phase) and 320V (for 3 phase)

d. The pumpset is not opened by unauthorised mechanics.

e. The customer information sheet attached to the warranty certificate is sent back immediately after purchase / installation of the pumpset.
